Interdisciplinary and international Design Build

Summer School

Renewable Materials

DESIGN BUILD PROJECT

Looking for a summer adventure that combines sustainability, creativity, and construction? Join students from around the world at the 4th edition of the Summer School "Building with Renewable Materials," hosted by the Hochschule RheinMain (HSRM) Competence Center for Renewable Building Materials! This hands-on, interdisciplinary program dives into natural construction techniques such as building with earth and bamboo and invites you to experiment with other renewable materials. It's all about learning by doing, sharing ideas, and discovering new ways to build sustainably. But it's not just about workshops. There's a full lineup of social and cultural activities waiting for you! From exploring the beautiful city of Wiesbaden to making new friends during evening events, this Summer School offers an unforgettable mix of learning, fun, and international exchange.

TEAM

The team of the 'HSRM Competence Center' is looking forward to the design build week: Prof. Sascha Luippold, Dr.-Ing. Oliver Bletz-Mühldorfer, Dipl.-Ing. Andrés Böppler, Dipl.-Ing. Jan Glasmeier, M.Sc. Pascal Franck, M.Sc. Paulino Botao, M.Sc. Sarah Mesz, M.Sc. Nikolai Ochs and M.Sc. Christoph Diekhans.

HOW TO REGISTER

Please send an e-mail with a short CV and motivation letter (1 page max) by June 14, 2025 to christoph.diekhans@hs-rm.de cc: nikolai.ochs@hs-rm.de. Confirmation to the participants will be sent out by June 16, 2025.

ORGANISER

HSRM Competence Center for Renewable Building Materials
(In the process of establishing)

TIME

11.08.2025 - 16.08.2025

LOCATION

Hochschule RheinMain, Wiesbaden, Kurt-Schumacher-Ring 18

COSTS

No participation fees.
Costs for travel and food have to be covered by the participant

ACCOMMODATION

Available on campus after consultation

ACCREDITATION

4 ECTS (for external possible)
